Which AI model you should choose

| MODEL	✔ PROS	✖ CONS
ChatGPT Open AI	Many versions. High skill ceiling. Store prompts. New updates are pending. Enterprise options for data and privacy.	Not beginner friendly, high complexity, result can be subpar. Their business model repidly tries to sync you into a subscription.
ChatGPT Mobile Open AI	Great to convert audio to a prompt when you're on the go and get a quick answer.	Same
Bing Microsoft/ Open AI	Top choice: Beginners, Great to have open whilst browsing, Queries internet for results not only the model, generates images and extracts text for free	Not as 'Pro' as ChatGPT, but as it uses the same model, it's the choice for beginners and those who want an easy AI assistant.
Claude Anthropic	Top Choice: Beginners and best conversational AI with a good common sense, stores prompts	Almost none
Bard Google	Generate images and extracts text for free, stores prompts	Mediocre everything
