GROWTH ACTION PLAN ON A PAGE	39

This workbook uses a module-by-module approach to recording your notes as you go through the Help to Grow Programme. It will help you to identify priorities and turn your ambitions into reality through simple action planning.

Start filling in this workbook from the very first module, and make completing it a regular habit during the programme to ensure you capture your valuable learning and reflection in a format that is easy to return to and develop as you go along. You will be matched with a mentor who will support you to address the challenges facing your business and support you with your Growth Action Planning. More information about the mentoring is available in the Mentoring tab of the Induction Area.

After each module, simply click on the relevant module link above and fill in your answers to the module questions.

Please ensure that you save your Growth Action Planning Workbook each time you use it to ensure that you do not lose any work completed

When you get to the final stage of the programme you will need to think about how everything fits together. Start filling in the Plan on a Page to present your thinking in a simple visual format that you can share and work on with others in the business.
